

2.

Note. This drawing shows the *Oktia*, a drawing designed to link the eight numbers from the *Sequencia*, known as the *Hitenumbers*, to the female and male human forms.  
For *Tokhroma*, the above eight *Hitenumbers* are not important as fixed measurements, rather it is their proportional relationships that are of importance and these are shown in drawing six. For the geometric constructions behind the drawing, see drawings four and five.
